

Case Study: 21% Improvement on Test

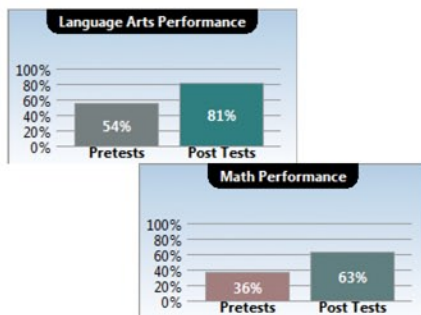

Online Achiever! Used at Home and in Classroom

“We have been very happy with the results of the program. Students have increased their RIT scores on the NWEA MAP test. One student increased their score by 21 points, which is the largest gain we have ever seen.”

Billy Murrell, Superintendent

Roy Municipal Schools is a small rural school district located in Roy, NM.

Roy Municipal Schools uses online Achiever! for all its students for grades 3rd – 8th.

● Goal

The district was looking for an intervention strategy to provide a tool to help students reach their grade level expectations.

● Solution

Students used Achiever! as an intervention tool during class and even completed lessons at home.

● Results

The Superintendent credits Brainchild for helping them increase RIT scores on the NWEA MAP test and points out a 21% increase with one of their struggling learners.
